

ACRYLIC WALL PUTTY

Product Scope

Buxly Acrylic Wall Putty is especially designed to be used on all types of exterior masonry surfaces. Its unique engineering has made it possible to formulate a wall filler that can possess the highest levels of resistance against extreme weather.

Product Application

Buxly Acrylic Wall Putty is applicable with blades specifically designed for this purpose. It can be thinned down with water by a ratio of 1:1 for application.

Packaging

Available in 20 kg pack size.

Technical Information

Type	Water Based Air Drying
Viscosity by STORMER Viscometer @ 25 °C	58–65 KU when thinned as (Paint: Water = 1:1) by weight
Specific gravity	1.56–1.64
pH	8.0–8.5
Color	White
Drying Time	2–3 Hours (Depending on Temp. & Humidity)
Recoating Time	4 Hours Minimum (Depending on Temperature & Humidity)
Covering	5–7 m ² per kg per coat (Depending upon surface porosity)
Shelf Life	As long as the container is kept firmly sealed and stored under normal condition, the material can be kept up to 6 (six) months without deterioration
